TAYLOR
BLINDS & SHUTTERS Est. 1959

HOW TO OPERATE YOUR

SHUTTERSTYLE® ALUMINIUM SECURITY

To lock: slide the square knob downwards, then press in the push lock. No key required.

To unlock: insert the key in the upright position, give a quarter turn clockwise and then back to the vertical as the lock releases. Slide the square knob upwards to retract the locking pins top and bottom.

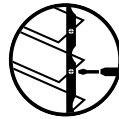

For stacking purposes: the push lock can be engaged in the unlocked position.

TENSIONING OF LOUVRES:

Unclip the closest piece (using a flat screwdriver) on the louvre lock side (of the stile). This will allow access to the pressure pad on the tilt mechanism.

In order to adjust the tension, the pressure pad can be adjusted by tightening (clockwise) or releasing the screw, using a 3mm Allen Key.

HOW TO CLEAN

YOUR SHUTTERS

Frequently clean bottom track from obstructions and dirt, using a vacuum cleaner.

Dust frequently and wipe with a mild solution of dishwashing liquid.

Outside shutters may be sprayed down with clean water.

Our ShutterStyle® Aluminium Shutters carry a warranty up to 5 years from date of purchase against faulty workmanship or components as well as faulty installations. Terms and conditions apply.

Style. Sophistication. Serenity. Not bad for a 60-year old.
